Cutting & glazing:

All plastics

- Thin plastics up to 3mm can be scored and snapped. For 3mm and above we recommend using a high speed circular saw with specialist blade designed for cutting plastic sheets. Glaze either side -the UV filter in plastic sheets is in the body of the plastic

Cleaning:

Art-Shield™ Acrylic

- Use a good quality plastic or non-abrasive glass cleaner such as our NOVUS 1

Tru Vue Optium Museum Acrylic

- **MUST NOT** be cleaned with a plastic polish. Use an optical glass cleaner such as our Optibrite or clean water with "a drop" of liquid soap, rinse with clean water and dry. Use clean micro fibre cloths (our ref. CLOTH1).
