## SUBFRAMES

Subframes provide strong framing support for your artwork and make it possible to select and use smaller mouldings for larger pictures.

Available in two sizes:

63mm x 18mm and 41mm x 18mm, both in obeche.

The design of the subframe also allows it to be used as a very strong hanging system. Simply fix a length of subframe to the wall with the bevel the opposite way to that inside the frame. It is important to get this absolutely level! When the picture is placed over the wall the frame will then sit flush to the wall and perfectly level.
