*Liberon Finishing Oil is a blend of high quality oils for use on all interior wood and turned woodwork. It is suitable for use on worktops, kitchen tables and bathroom furniture and can also be applied to cork, stone and terracotta.*

- **Nourishes and enhances the natural colour of wood**
- **Provides a hard-wearing and water-resistant surface**

## PREPARATION

Ensure the surface is bare: remove any wax finishes with Liberon Wax and Polish Remover and any varnish finishes with Liberon Fine Wood Stripper. Clean, dry and ensure the surface is dust-free.

## APPLICATION

Shake well before use. Apply a coat of Liberon Finishing Oil using a brush or lint-free cotton cloth. Allow the oil to penetrate for up to 15 minutes then wipe off all the excess with a clean lint-free cloth, before the surface dries enough to become sticky. Allow to dry for 6 hours and apply more coats as required. We recommend a minimum of 3 coats. The more coats applied the higher the sheen and the more durable the finish will be. For best results gently rub with Liberon Ultra Fine Steel Wool (0000) between coats. Furniture items may be finished with Liberon Black Bison Wax for an improved lustre. Remove as much of the oil as possible from the tools after use. Do not dispose of residues and washing water/solvents in the sink, toilet, sewer, bin, etc., in order to avoid discharge into the environment.

**Important:** Oil finishes bring out the natural colours of timber. A wet surface will be an indication of the final colour. Always test product on a spare surface or inconspicuous area for colour, compatibility and end result.

## CLEANING AND MAINTENANCE

Surfaces may be cleaned using a damp cloth and spills should be wiped up immediately. For stubborn stains a mild detergent can be used. Surfaces need to be re-oiled once a year or more, depending upon usage. **CAUTION:** Risk of self-combustion. Wet with water any textiles or tools soiled with the product and dispose of them in a tightly closed container.
