

WOOD FILLER

150g

Liberon Wood Filler guarantees a result without shrinkage or cracking. It is ideal for easily filling small holes, cracks, chips, imperfections, etc. It has excellent colour recovery allowing very discreet repairs to be carried out. It applies to all types of wood and derivatives. After drying, it can be sanded, nailed, screwed, filed and can be covered with a dye, a paint, a varnish or a wax.

- **Discreet and neat result**
- **No shrinkage or cracking**

PREPARATION

Ready to use, apply on a clean, dry and dust-free surface. Mix the content of the tube with your fingers. If required, protect the parts around the repair area with masking tape.

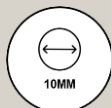

APPLICATION

Apply Liberon Wood Filler and smooth it out by exerting pressure on the painter's knife. It does not stick and does not roll under the spatula. After drying, sand with 240 grit sandpaper to obtain a perfect result. Choose the shade closest to the desired colour or a tone above.

Important: Always test the product on a spare surface or inconspicuous area for colour, compatibility and end results. Wood Filler may accept dyes/stains differently to surrounding wood. Remove as much of the product as possible from the tools after use. Do not dispose of residues and washing water/solvents in the sink, toilet, sewer, bin, etc., in order to avoid discharge into the environment
